## ABOUT ME

I am a mechatronics student and a very passionate student of anything that comes to mind. From my endeavours in university life, I taught myself to work under pressure and handle critical situations easily. I have learned to have the right mindset in today's job market. I am looking for a job that will allow me to gain more knowledge and learn new skills.

## WORK HISTORY

📅 Oct 2021 - Mar 2022

📍 Digiteq Automotive s. r. o.

Intern - 3D designer

Made it easier to test parts for the ŠKODA AreaView assistance system via AutoCAD Inventor in combination with 3D printing.  
Maintenance of PRUSA MK3S 3D printers.  
Handling of the ODIS vehicle service system.

📅 Jun 2022 - Now

📍 ŠKODA AUTO a.s.

Intern - Data Analysis

Used big data analysis via Impala SQL to expose problems in the company project structure.  
Made several PowerBI analyses that helped our department vi-  
sualise problems.  
Developed a JIRA structure that changed the process of daily standups.

## EDUCATION

📅 Sep 2019 - Present

📍 Technical University of Liberec

Masters degree

Faculty of Informatics and Mechatronics  
Mechatronics  
Finished a bachelor's degree in the same field

📅 Sep 2011 - Jun 2019

📍 Grammar school of Dr Josef Pekař

High school
